

| USERS | | 1+ | > 2 | > 30 CAD Users |
|----------------|--|----|----------------------|----------------------|
| CAD Users | | | | |
| General Users | <p>Other Office staff such as administrators or HR who do not use CAD software</p> <p>Potential job candidates - for assessing prior to employment</p> <p>This could include project stakeholders or subcontractors. Enterprise may add 10 external users at no additional cost. Pinnacle series subscriptions may add a user who has a paid Pinnacle Series licence</p> | | Licence per user | Unlimited |
| Recruits | | | Unlimited | Unlimited |
| External Users | | | | |
| | | | First 10 @ no charge | First 10 @ no charge |

| LEARNING | | | | | |
|------------------------------|--|--|-----------|-----------|-----------|
| Learning Paths | Provides grouped learning content for example Fundamentals, intermediate or Advanced learning paths | | | | |
| Workflows, Documents, Videos | Content is provided in bit sized chunks with links to other related content, including cheat sheets, interactive workflows and videos by industry experts. | | | | |
| Assignments | Managers can assign content to users and add a due date | | | | |
| Knowledge Smart Assessments | Use existing assessments linked to the content to identify gaps. For example if a user does an assessment and fails certain questions, the assessment will recommend learning addressing only those not passed. In a case where a topic has 20 courses, you may find after a KnowledgeSmart Assessment, the user only needs to complete 3 of the courses. This increases learning efficiency. You can also create your own Knowledge Smart assessments linked to existing content or your own custom content | | Unlimited | Unlimited | Unlimited |
| Autodesk Plugin | Add a plugin to your Autodesk software & drive commands or access related learning from inside your Autodesk program | | | | |

| CONTENT | | | | | |
|--------------------------------|---|---------------------------|-------------------|---------------------------|--|
| Content Library | 30,000+ Videos & Articles. Full library of Autodesk Learning and includes the complimentary library. | Complete Autodesk Library | ACC Library Only | Complete Autodesk Library | Complete Autodesk Library |
| Additional Content Libraries | Select per user from Bentley, SolidWorks, Adobe, Business Management, Microsoft | Optional Extra | Optional Extra | Optional Extra | Optional Extra |
| BIM Global ISO 19650 Standards | The highest consumption of content across the globe | | | | |
| Translations (60+ languages) | Content is translated into over 90 languages, including English Afrikaans Xhosa Zulu Setswana Sesotho | | | | |
| CPD Accredited Content | CPD Accreditation for the following South African bodies will be available in 2024. Include logos for ECSA, SACAP & SACPCMP | | | | |
| Document Storage | | | | | |
| Support | | Live Chat Support | Live Chat Support | Live Chat Support | Live Support & dedicated Success Manager |
| Custom Content | Create, Upload or edit. Pinnacle's powerful platform will automatically transcribe your content & offer to translate it. | | | | |
| Offline Access | Download & access content offline | | | | |

| FUNCTIONALITY | | | | | |
|------------------------|---|--|--|--|--|
| Robust Search function | Search by topic, role, software, version or event content type | | | | |
| Trending | See what your colleagues are using | | | | |
| Certificates | Download your certificate of completion. CPD Certificates of Completion follow a different process. See accredited courses for details. | | | | |
| My Assets | Upload your own assets for easy access or to share | | | | |

COLLABORATION

| | | | | | |
|------------------|---|---|---|---|---|
| Live Events | View the calendar of live events to attend any global training arranged by pinnacle with industry experts from across the globe. Add your own internal events for your team to view. | ● | ● | ● | ● |
| Workgroups | Group content into specific roles or for a specific project or purpose. This can be used for external users such as onboarding stakeholders or subcontractors to a project and could include processes or safety onboarding | | ● | ● | ● |
| Social Sharing | | | ● | ● | ● |
| Internal Experts | | | ● | ● | ● |

ADMINISTRATION

| | | | | | |
|--------------------------------|--|--|---|---|---|
| Notifications | | | ● | ● | ● |
| Reporting & Analytics | View consumption by person or topic and more. This can be used to plan training or manage training. | | ● | ● | ● |
